

Schedule of Rates

In-House Laboratory Analysis

Prices are in AUD, EXCLUSIVE of GST and do not include sampling consumables (eg spore trap cassettes). Price List remains fixed until 30/06/2019.

Code	Analysis Type	Turn Around Time# Rates (ex. GST)		
		72 hr	48 hr	24 hr
VL001	Tape Lift IICRC Surface Sample Analysis	\$50	\$75	\$100
VL001SD	Tape Lift Semi-Quantitative Surface Analysis	\$70	\$110	\$150
VL002	Spore Trap Air Analysis - Standard	\$50	\$75	\$100
VL002D	Spore Trap Air Analysis - Detailed	\$85	\$125	\$170

Turn Around Time (TAT) during normal Business Hours (Mon-Fri, 8:30am-5pm AEST) is calculated from time samples are received in laboratory. Receipt time is recorded on COC when signed as received. This is documented on the Sample Receipt Notification (SRN).

***** If analysis required outside of these hours, please call for a quote *****

VL001 - Tape Lift IICRC Surface Sample Analysis

Analytical Report encompasses:

- IICRC Condition - 1, 2 or 3
- Total Coverage (%)
- General analysis comments and dominant genera where appropriate

VL001SD - Tape Lift Semi-Quantitative Surface Sample Analysis

Analytical Report encompasses:

- IICRC Condition - 1, 2 or 3
- Debris Coverage (%)
- Mould Coverage (%)
- Fungal Structures Count
- Fungal Structures Concentration (fs/cm²)
- Hyphae and/or Fruiting Bodies
- General analysis comments and dominant genera where appropriate

VL002 - Spore Trap Analysis - STANDARD

Standard analytical report encompasses:

- Total Spores - spores/m³ (sp/m³)
- *Aspergillus/Penicillium*-like - sp/m³
- *Stachybotrys/Memnoniella*-like -sp/m³
- Debris Rating (0 - 5)

VL002D - Spore Trap Analysis - DETAILED

As per ASTM D7391-17e1 and the Standard Spore Trap Analysis PLUS the following **genera specific** reporting parameters:

- Raw Counts
- Concentrations (fs/m³)
- Percentages
- Number of Clusters & Spores per Cluster

The following **genera** are reported *Alternaria*, *Ascospores* (undifferentiated), *Aspergillus/Penicillium*, *Cladosporium*, *Curvularia*, *Drechslera/Bipolaris*, *Basidiospores* (undifferentiated), *Chaetomium*, *Epicoccum*, *Fusarium*, *Ganoderma*, *Nigrospora*, *Pithomyces*, *Smuts/Myxomycetes/Periconia*, *Spegazzina*, *Stachybotrys/Memnoniella*, *Tetraploa*, *Torula*, *Ulocladium*, *Cercospora*.

Schedule of Rates

Referred Laboratory Analysis

Samples are forwarded to relevant testing laboratories for analysis. Expected TAT 3 - 5 days.

Code	Analysis Type	Rates (ex. GST)
VS001	Swab Analysis - Mould & Yeasts	\$55
VS002	Swab Analysis - <i>E.coli</i> DETECTION	\$55
VA001	Agar Analysis - Total Mould	\$120
VA001D	Agar Analysis - Total Mould + Predominant species	\$160
VB001	Asbestos Analysis	\$50

VS001 - Swab Analysis - Moulds & Yeasts

Surface swab testing sent to reference laboratory for CFU/cm² of total moulds and yeasts. Sample area of 2.5cm x 2.5cm recommended. Samples stored at room temp and need to be received within 24h of sampling.

VS002 - Swab Analysis - *E.coli* DETECTION

Surface swab testing sent to reference laboratory for DETECTION of *Escherichia coli*. Sample area of 2.5cm x 2.5cm recommended. Samples stored at room temp and need to be received within 24h of sampling.

VA001 - Agar Analysis - Total Mould

Airborne analysis of agar sampled via air impaction sampling pumps. Results are reported as CFU/m³.

VA001D - Agar Analysis - Total Mould + Predominant species

Airborne analysis of agar sampled via air impaction sampling pumps. Results are reported as CFU/m³ and include the dominant species grown.

VB001 - Asbestos Analysis

Airbourne and bulk sample asbestos analysis and reporting.

Sampling Supplies

All sampling supplies can be shipped Express Post. Postage and Handling fees starting at \$15.

Code	Consumables	Rates (ex. GST)
S-OHT	Tapelift Transparency Sheets	Free of charge
S-TL1	Individual Tapelift Slides + Case	\$2 each
S-ST	Allergenco D Spore Trap Cassettes	\$10 each
S-ST50	Allergenco D Spore Trap Cassettes Bulk – Box of 50	\$350 per box
S-ATP	Adenosine Tri-Phosphate (ATP) Swabs	\$10 each
S-SW	Culture Swabs	Free of charge

On-Site Mould Laboratory

Set up of mobile mould microscopy laboratory for onsite review of tapelift and spore trap samples. Price quoted is for set up only and does not include cost of sample analysis (see Investigations/Consultancy Rates) or sampling consumables (see Sampling Consumables). A 60km radius applies before additional mileage is charged.

Code	Mobile Microscopy Services	Daily Rate (ex.GST)
VL-MS	Setup/Demobilisation	\$200 (one-off fee)
VL-MD	Equipment Hire	\$150

Schedule of Rates

Environmental Investigations

Prices are in AUD, EXCLUSIVE of GST and do not include sampling consumables (eg spore trap cassettes). Price List remains fixed until 30/06/2019.

Investigations & Consultancy

Consultancy costs cover sampling, mapping, reporting and project management and teleconferencing and covers travel within 60km of the office. For locations outside of this radius per kilometre mileage will be calculated and quoted for. International consultancy services charged on per project basis please contact us for a quote.

Code	Required Consultancy Period	Hourly Rates [†] (ex. GST)
I-NH	Normal Business Hours	\$150
I-AH	Weekends/Public Holidays	\$250

[†]Quoted price excludes cost of sample analysis, sampling consumables and external equipment hire.

Investigations Reports

Viridis provides independent and timely sampling and analysis services. Reports detailing environmental damage can be issued with laboratory analysis and project specific recommendations.

Code	Investigations Reporting	Rates [^] (ex. GST)
I-SR	Summary Report	\$250
I-SRush	General Report + 24h delivery (with prior agreement)	\$350
Basic report covering the general aspects of the investigation and/or laboratory results analysis. Approx 1-2 pages.		
	Extensive Report	\$500 - 750
I-ER 500 I-ER 650 I-ER 750	In-depth report including detailed analytical, thermal and moisture mapping. Extensive reports are usually required where extensive water damage has occurred or for large-scale remediation projects. ***Extent of report and quote provided on enquiry***	

[^] Does not include consultation fee.

Sampling Equipment Hire

All sampling equipment hire subject to pre-approval and Terms & Conditions.

Code	Equipment Type	Daily Rates (ex. GST)
X-BP	Zefon BioPump +/- Tripod	\$100
X-And	Anderson Air Impaction Sampling Pump + Single Stage Head	\$100
X-AC	SKC AirChek XR5000 Pump	\$100
X-ATP	ATP Meter	\$100
