In-House Laboratory Analysis

The below table outlines our in-house services including analysis type and turnaround times.

Code	Analysis Type	Turnaround Time Rates*		
		72 hr	48 hr	24 hr
VL001	Surface Tape Lift Analysis IICRC and ASTM	For our complete schedule of rates please contact Viridis admin at admin@viridis.com.au .		
VL001D	Surface Tape Lift Analysis Comprehensive IICRC and Enumeration			
VL002	Spore Trap Air Analysis Total, Asp./Pen., and Stachy Enumeration			
VL002D	Spore Trap Air Analysis Comprehensive ASTM and Complete Enumeration [#]			
VL000	Field Blank			

* Turnaround Time (TAT) during normal business hours (Mon-Fri, 8am-4pm AEST) is calculated from the time samples are received and registered in the laboratory. Receipt time is recorded on the COC when samples are registered in the laboratory. This is documented on the Sample Receipt Notification (SRN), which is sent out electronically to the nominated "Send Reports to" email.

** Samples with >90% debris coverage and deemed unacceptable for analysis are charged a \$25 preparation only fee.

If analysis is required out of office hours or for accelerated turnaround time (<24h), please contact the laboratory in advance to discuss. Surcharges may apply.

VL001 – Surface Tape Lift Analysis
Standard test method ASTM D7658-17
<ul style="list-style-type: none"> IICRC Condition - 1, 2 or 3 Fungal Loading Score (A-E) Debris Loading Score (A-E) All observed Genera listed, and dominant noted Additional analytical/observation comments

VL002 – Air Spore Trap Analysis
Adaptation of standard test method ASTM D7391-17 ^{e1}
<ul style="list-style-type: none"> Total fungal structures (fs/m³) <i>Aspergillus/Penicillium</i>-like concentrations (fs/m³) <i>Stachybotrys</i>-like concentrations (fs/m³) Relative percentages (%) Debris Loading Score (A - E) Additional analytical/observation comments

VL001D – Surface Tape Lift Analysis Comprehensive
Adaptation of standard test method ASTM D7658-17
<ul style="list-style-type: none"> IICRC Condition - 1, 2 or 3 Debris Loading Score (A-E) All observed Genera listed, and enumerated (fs/cm²)[*] Total fungal structure concentration (fs/cm²) Additional analytical/observation comments

VL002D – Air Spore Trap Analysis Comprehensive
Standard test method ASTM D7391-17 ^{e1}
<ul style="list-style-type: none"> Total fungal structures (fs/m³) Enumeration of 29 fungal categories[#] Raw Counts + Concentrations (fs/m³) Number of Clusters & Spores per Cluster Relative percentages (%) Debris Loading Score (A - E) Additional analytical/observation comments

[#]Viridis routinely reports on **29 fungal categories** when observed for all of our analytical tests: *Alternaria*, *Arthrinium*, Ascospores (undifferentiated), *Aspergillus/Penicillium*, *Aureobasidium*, Basidiospores (undifferentiated), *Cercospora*, *Chaetomium*, *Cladophialophora*, *Cladosporium*, *Curvularia*, *Drechslera/Bipolaris*, *Epicoccum*, *Fusarium*, *Ganoderma*, *Nigrospora*, *Oidium*, *Pithomyces*, *Scopulariopsis*, *Smuts/Myxomycetes/Periconia*, *Spegazzinia*, *Stachybotrys/Memnoniella*, *Tetraploa*, *Torula*, *Trichoderma* *Ulocladium*, *Zygothiala*, Miscellaneous/Unidentified, Hyphal Fragments.

Additional analytical/observation comments include presence of fruiting bodies (e.g. conidial heads), spore catenulates, and mycelium.

Sampling Supplies

All sampling supplies are shipped by AusPost Express. Postage and Handling fees start at \$15.

Code	Consumables	Rates (ex. GST)
S-OHT	Tapelift Transparency Sheets	Free of charge
S-TL1	Biotape Individual Slide + Case	\$2 each
S-TL10	Biotape 10 Slides Pack (includes cases)	\$15 per pack
S-TL50	Biotape 50 Slides Pack (includes cases)	\$75 per pack
S-ST1	Allergenco-D Spore Trap Cassettes	\$10 each
S-ST50	Allergenco-D Spore Trap Cassettes – Box of 50	\$350 per box
S-ATP	Adenosine Tri-Phosphate (ATP) Swabs	\$10 each
S-SW	Culture Swabs	\$10 each
S-POST	Sampling Supplies Postage	\$15+
